

priest to ask him, futilely, to say Mass for him, and then he settles in, making his presence as a layman felt until the somewhat expected happens. His priestly qualities manifest themselves, he is taken to be a saint who is capable of cures. After the long section of chase perhaps too long but fitting if the book is taken as an entertainment, which ends in a hilarious scene during which the police try to run down the pope in a helicopter, Leo XIV is reported by the Vatican to be recovering from his long bout of influenza which has kept him from his public duties and out of the public eyes. Finally, I doubt that it will spoil the reader's enjoyment of the milieu, the chase and the authentic hierarchic background, to report that the ending is one of reconciliation and grace. It even contains a fine supernatural moment which, in the light of all that has gone before in this skillful and amusing book, is entirely acceptable.

REVIEWS

MARGARET O'BRIEN STEINFELS is an editor and writer in New York and the author of *Who's Minding the Children: The History and Politics of Day Care in America*.

FATHER NICOLAS AYO, C.S.C., teaches in the liberal studies program at the University of Notre Dame.

DORIS GRUMBACH writes regularly for the *New York Times Book Review*. Her books include *Chamber Music* and *The Missing Person*.

I knew of Celia Gittelson when she served a major publishing house as a publicity manager. I am glad to make her acquaintance as a writer of playful fiction. Sitting in the sun on a wide Maine beach I found her story just right for the time and the place, and her skill, in her first novel, uncommon, unexpected, and most pleasurable.

foreign and domestic ties are unsubstantiated and the political maneuvering which surrounds the case arouses suspicions that quite a few are unfounded.

Correspondence

(Continued from page 706)

political institutions, this latest *crisi* prompts the obvious query: what are the sources of Italy's political stability? One part of the answer is that the same sense of self-interest which motivated the *piduisti* is widely diffused in Italy. Both the Christian Democrats and the Communists, Italy's two largest parties, have created states within the state by protecting and promoting the self-interest of their members and clients. In a crisis the need to protect personal interests and to defend the state within which this system operates coalesce and Italian democracy staggers through yet another apparently insurmountable crisis.

Ultimately, moreover, one wonders how much of a threat to the stability of Italian democracy this latest crisis will prove to be. Many of the allegations which Terzuolo reports about P-2's

Moreover, while Gelli, like Stalin, may have been a superb file clerk, his political acumen is questionable. Italy's political leaders hit upon the alliance of Christian Democrats and Socialists as a bulwark against Communism in the early 1960s. The alliance was in its second incarnation before P-2's Venerable Master realized the obvious. Some Machiavelli! Unfortunately, given the Italian passion for conspiracy theories (witness the jury findings in the Pope John Paul II assassination case), the massive and contradictory evidence Gelli left in his villa, the politicization of the case, and the slowness with which Italian justice generally works, it is almost certain that no one will ever satisfactorily explain the P-2 conspiracy.

JAMES E. MILLER

Church/world watch

(Continued from page 713)

cerned with the arms race will be warned by Hoffman that an ethic of intention is not sufficient in the political world; it must be joined with an ethic of consequences. This will require testing the various disarmament measures against the arcane logic of deterrence. Such advice slows down coalition building but it may enhance the quality of our contribution to the public debate. Finally, this book is an invitation to other academics who share Hoffman's background in political science, but have not yet stretched their curiosity or competence to engage the normative questions.
